What happens during the set up process?

- iPads are linked to our MDM (mobile device management) software, to enable us to send apps and other information.

- Each device is assigned a new Apple ID based on the student's school email. NB: Credit card should <u>not</u> be linked to school Apple accounts.

- Students will have their school email account set up on their device.

- iPads will be connected to the school WiFi.

- New iPads will be assigned a generic 'passcode' (to get on to device).

- Basic restrictions will be enabled. Parents are welcome to adapt restrictions to suit device user.

- iPads will be returned to class after set up.

- Set up details will be sent home in a sealed envelope via student (unless otherwise organized).

Please Note: Students are not given, or required to know, the school Apple ID password. If parents wish to disclose this to their child, they may do so at their own discretion. We would, however, recommend enabling app age restrictions to avoid the downloading inappropriate apps. (We can assist with changing restrictions if required.)

Have any questions?

Please feel free to contact the school:
