

Dear Families,

As you will be aware, from recent communication from Management, our service will be introducing the Xplor Playground Application to document children's learning, program and planning and most importantly communicate with families.

Xplor allows each child to have a secure, private profile, which can be accessed at any time from your smart device and the web. It will notify you when our educators add new information such as observations, photos and health events such as sleep times and meals .

Xplor allows for more sharing between home and the service as you are able to comment, make suggestions and share experiences that are happening at home via the App. You will receive updates about your child's day while they are at the service, announcements, newsletters, and documentation of the children's learning will be shared via Playground.

More information, including instructions for downloading and using the App will be provided to you as part of your enrolment pack.

We encourage you to ask any questions you may have, request a demonstration from one of our Educators and read the information supplied that addresses the Terms of Use and Security of Xplor prior to signing the Agreement below.

I, _____
Insert full name here

as Parent/Guardian for _____
Insert child/children's name here

acknowledge and consent to the following:

- The Service will provide Xplor with my contact information and information about my child (including date of birth, attendance and health) for the purpose of creating a profile in Playground.
- My child/children may be included in photographs that will be visible on the timelines of other children
- Photographs from my child/children's timeline that include other children are not permitted to be shared via any form of social media

I am aware that the Xplor Agreement forms part of the enrolment contract and by signing agree to all terms as set out above.
